8

9 JUNE 3, 2019

10 7:00 P.M.

11 OLD FORGE MUNICIPAL BUILDING

12 314 SOUTH MAIN STREET

13 OLD FORGE, PENNSYLVANIA
14
15
16

17 COUNCIL MEMBERS:
18

19 LOUIS FEBBO

20 RICK NOTARI

21 JAMES HOOVER

22 WILLIAM RINALDI, ESQUIRE, SOLICITOR

23 MARYLYNN BARTOLETTI, BOROUGH MANAGER
24

25 Mark Wozniak
Official Court Reporter

1 (The Pledge of Allegiance was
2 recited.)

3 MS. BARTOLETTI: So we have
4 Councilman Febbo is here. Councilman
5 Notari?

6 MR. NOTARI: Present.

7 MS. BARTOLETTI: Councilman Hoover?

8 MR. HOOVER: Here.

9 MS. BARTOLETTI: Councilman Lettieri
10 is absent, Councilman Ferrett is absent,
11 Councilman Rinaldi is absent, and Councilman
12 Semenza is absent. Okay, so what I would
13 like to do is first let's start at the end
14 of the table, see if any of you have
15 anything for the agenda.

16 MAYOR LEGG: I'm good.

17 MR. FEBBO: Yes, one thing I want to
18 bring up is Angela Drive. I'd like to have
19 Dave, if he gets a chance, go up there, take
20 a look at the water runoff situation. We
21 talked about it previously where we need a
22 catch basin at the intersection and a pipe
23 coming across that's blocked. So I'd like
24 to have that on the agenda for next meeting.
25 That's all I have.

1 MR. NOTARI: I don't have anything
2 for the agenda. I have a few concerns I'd
3 like to address. I don't know if you want
4 to do that now or.

5 MS. BARTOLETTI: Sure.

6 MR. NOTARI: Just an update on how
7 are we -- where are we at with the borough
8 building and the ambulance building plans in
9 terms of moving forward?

10 MS. BARTOLETTI: The most recent is
11 the design for the police in the ambulance
12 building. I received that a couple days
13 ago, sent it to the chief. He loved the
14 plan. I sent it back to the architect for
15 them to start finalizing everything. I just
16 talked to Dave about it, so he is going to
17 be back in touch with the architect and try
18 to get everything moving now because I think
19 we're ready to roll.

20 MR. NOTARI: Can you forward that
21 plan to us, e-mail?

22 MS. BARTOLETTI: Absolutely.

23 MR. NOTARI: At least me.

24 MR. HOOVER: I'd like to see it.

25 MR. NOTARI: Do we have an update on

1 the chief? How's he doing? Are we
2 expecting him back?

3 MS. BARTOLETTI: Eventually. He's
4 doing rehab right now.

5 MAYOR LEGG: Four days a week.

6 MR. NOTARI: I had a resident call
7 about Church Street, off of Sibley Avenue.
8 There's some potholes there that need to be
9 filled. The middle of the street, the upper
10 end of church. Take a look and see.

11 I was wondering if Paul and Dave, if
12 you guys ever got together about the storm
13 water. Not that we have a plan, but we're
14 going to need the plan eventually. Where in
15 town are we currently separated, where do we
16 need to be separated. I think if we can get
17 that information going at least to start.

18 MR. PAPI: The whole town.

19 MR. NOTARI: There's certain areas
20 that are already separated.

21 MR. PAPI: The new developments.

22 MR. LOPATKA: I think to start
23 something like that you kind of have to get
24 an overall map together. Kind of a starting
25 point. Then once we get a map together and

1 know what's separated and what's not we can
2 come up with a game plan on how to start
3 moving forward.

4 MR. NOTARI: Can we start doing
5 that, coming up with a map?

6 MR. LOPATKA: We can if council
7 gives us the go ahead to move.

8 MS. BARTOLETTI: I'll put it
9 together for next meeting.

10 MR. FEBBO: We need a starting
11 point. Again, we don't know where we are in
12 town. The other part is when we do get
13 started it's a priority. Where do we start?

14 MR. LOPATKA: Typically you want to
15 start somewhere downstream and work
16 upstream.

17 MR. FEBBO: Drake's Lane area?

18 MR. LOPATKA: Probably a couple.

19 MR. PAPI: We have engineered Drake
20 Street before with Harold Ash and it was
21 over a million dollars. That's why we never
22 moved on it. But I don't know if anybody
23 ever thought about putting tanks in the
24 ground there, leach tanks. The huge tanks
25 that would hold the water and leach it into

1 the ground. That might save, you know, a
2 lot of money. They have to be under the
3 curb, sidewalk area, front yard. Just dig
4 two big tanks, one on each side.

5 MR. FEBBO: I don't know if that
6 would ever fly.

7 MR. PAPI: Well, they're the only
8 houses affected by it, those four houses.

9 MR. NOTARI: The whole town is going
10 to be affected by it. It's storm water
11 management.

12 MR. PAPI: You can't get across
13 Drake's Lane when the water is like that.
14 We have to block the street off. It's an
15 eight-inch pipe and it can't take all that
16 water.

17 MR. NOTARI: That's all I have.

18 MR. HOOVER: The Stocki property, do
19 we have an update on that, Steve? I know
20 he's still cutting.

21 MR. BIERYLA: The update was I
22 walked it on Friday and I called up Mark to
23 tell the judge, to tell Bill, and I believe
24 Bill is going to be meeting with the judge
25 this week.

1 ATTY. RINALDI: Friday, 9:30.

2 MR. BIERLYA: I have pictures. I
3 thought the agreement was going to be
4 towards the end of it what he couldn't move
5 after he'd continue cutting --

6 MR. NOTARI: They're still working
7 there?

8 MR. HOOVER: He's still cutting.
9 Does he tell you when he's cutting?

10 MR. BIERLYA: Not at all.

11 MR. FEBBO: The deal was he is going
12 to handle 80 percent of the small stuff in
13 the beginning, when he comes down to the 20
14 percent toward the end he's got to notify
15 Steve in a letter. Again, if he's cutting
16 now he's in violation.

17 MR. HOOVER: He is.

18 MR. BIERLYA: Personally I think he
19 has more torches there.

20 MR. HOOVER: You can hear the
21 torches just walking by on Saturday.

22 MR. BIERLYA: They're kind of in the
23 middle.

24 MR. HOOVER: He's got the back kind
25 of cleaned up a little bit. You can't see

1 now because the trees are grown in. You can
2 still hear it. Even once in a while on
3 Sunday you can hear him doing something over
4 there.

5 I don't know how many people looked
6 at Kohler Avenue. Looks pretty good except
7 for the curb that wasn't put in.

8 MS. BARTOLETTI: It's looking pretty
9 good.

10 MR. HOOVER: Even fixed the cut on
11 Church Street. That's it. Update for
12 Moosic Road, the job is done as far as all
13 the water work. We have to do permanent
14 restoration. I'm trying to get it together.
15 I'm meeting with the gas company tomorrow.
16 Hopefully get it paved this year. The
17 contractor still has to do all the handicap
18 ramps. Then they're going to close the
19 railroad tracks on Moosic Road for a whole
20 week. That is the state. That's all.

21 MS. BARTOLETTI: Okay. Dave?

22 MR. LOPATKA: I just dropped off the
23 paving estimate for the paving project for
24 the year. That can be talked about at the
25 regular meeting once everybody had a chance

1 to review it. Other than that, I don't have
2 anything. I will follow up with the
3 architect on the borough building plans.
4 I'll give you some kind of update on that.

5 MS. BARTOLETTI: I think everybody
6 is anxious to get started. So Joe knows
7 that.

8 MR. LOPATKA: We'll make sure.

9 ATTY. RINALDI: You have one
10 ordinance with regard to Keyser Avenue,
11 straightening that out. That will be on the
12 agenda. Provided you have the names, you
13 could have a resolution naming all that to
14 the planning commission.

15 I need either an executive session
16 or somebody has to talk to Marylynn with
17 regards to a personnel issue in the police
18 department.

19 Stocki has a meeting with the judge
20 at 9:30 a.m. on Friday morning. He wanted
21 to have an auction there. I opposed it
22 because he's not supposed to be doing any
23 business, but then somebody else said he
24 might want to bring in equipment to move
25 equipment out. So I have no clue what

1 they're going to ask for other than those
2 two things. I will bring up the cutting
3 issues with the judge. They're looking for
4 clarification.

5 And the only other things are I
6 mentioned to Marylynn what we intend to do
7 with the lot where we tore down the house,
8 and the rectory in terms of onset of winter.

9 MS. BARTOLETTI: The other thing was
10 about the house on Grace Street.

11 MR. NOTARI: Probably discuss that
12 in executive session with everybody.

13 MR. HOOVER: Yes.

14 ATTY. RINALDI: That's it.

15 MS. BARTOLETTI: Okay. Paul,
16 anything?

17 MR. PAPI: No, not today. We did
18 have a little water problem on Cleveo Street
19 that last monsoon we had, and we discovered
20 we had a buried manhole. So we uncovered
21 it, raised it up to the road surface and
22 cleaned all the lines. We should be fine
23 now.

24 MR. BIERLYA: Depending on what
25 happens Thursday at the planning meeting we

1 may or may not.

2 MS. BARTOLETTI: Okay. Martha?

3 MS. KAHAN: I'm the president of No
4 Nonsense Neutering. No Nonsense Neutering
5 is a 501C3. We just moved up here. We had
6 our first surgery day down in Plains on May
7 8th. It's our fifth clinic. No Nonsense
8 started ten years ago. We started because
9 the communities that we live in have issues
10 of unaffordability of people being able to
11 fix their animals. Number one, we make it
12 affordable for people to be able to fix
13 their cats and dogs, and over time we've
14 also worked with a lot of cat and dog
15 rescues because at that time they were
16 dropping off a lot of cats and dogs not
17 fixed or vaccinated because they couldn't
18 afford it. So we give them special rates.

19 So why I'm here tonight and why --
20 one of the reasons we moved to the Wyoming
21 Valley is for free-roaming community cats.
22 Over the course of the last ten years we
23 have neutered 65,000 community cats. Last
24 year alone we did 7,000, and you are not
25 alone as a community in trying to figure out

1 what you need to do here.

2 So we're going to talk about -- I
3 like to bring a presentation, and this is
4 for real. You have in your community cats
5 that are not fixed, and one female -- we've
6 had cats as young as five months pregnant.
7 If they have four kittens, do the
8 multiplication in one year if they're having
9 three or four litters in Pennsylvania. You
10 do the math. You're inundated.

11 So I wanted to come because I do
12 believe that communities throughout not only
13 Pennsylvania but the United States are
14 turning to a cat management program, and
15 it's a management program. Just as the
16 state requires you to have something for
17 dogs running at large -- you don't have an
18 animal control officer, so I'm assuming that
19 falls to a police officer if you have a dog
20 running at large.

21 You have to have a plan. Somebody
22 reports dogs running through the
23 neighborhood you have to have something you
24 can do about it. They can require you to
25 remove the cat, and I guarantee you that you

1 get more complaints about cats than you ever
2 do about dogs running around. Correct?

3 MR. BIERLYA: Yes.

4 MS. KAHAN: So that's why we need to
5 address this. It's 2019. Also, throughout
6 Pennsylvania shelters no longer want to
7 destroy cats. There used to be a period of
8 time when you could trap a cat, take it to a
9 shelter and they would euthanize it. That
10 was the way they managed cats. A lot of
11 shelters don't want to do that anymore. So
12 it behooves us as communities to come up
13 with a strategy that works.

14 I will tell you right now, we
15 contract out of Lehigh Valley with almost
16 every municipality in Lehigh County, and we
17 just signed the city of Bethlehem,
18 Philipsburg, which is right over the river.
19 So more and more municipalities are using
20 the trap and return method.

21 So one of the things I like to do
22 when I'm coming and speaking to a
23 municipality, talk about your animal control
24 ordinance. And they all look the same no
25 matter where I go. It's an ordinance from

1 30 years ago, 35 years ago. Doesn't look
2 any different. Anybody that's feeding a cat
3 is a no-no.

4 So what I'd like for you to do is
5 take a moment with me to look at the second
6 page of your handout, and let's talk about
7 cats. Indoor-outdoor cats. There are
8 people who let their cats come inside for
9 the evening and they go out during the day.
10 Please, I hope they're fixed. They should
11 be wearing breakaway collars.

12 Stray cats. Stray cats by
13 definition -- by the way, I do hope that you
14 will take the time -- and I know you talk
15 about potholes and water runoff, a lot of
16 things, but cats and health issues are part
17 of what we should be considering. This is a
18 great resource.

19 So when we look at the definition of
20 cats this is what is across the nation. How
21 we define the cats we're talking about
22 tonight. A stray cat used to have a sofa
23 inside, sitting next to you, and then got
24 tossed out. They're friendly and they're
25 usually not fixed. Why did they get tossed

1 out? Somebody found a cute kitten and the
2 landlord found out, you're not supposed to
3 have cats, thrown out the door. Hadn't been
4 fixed or vaccinated yet.

5 Another reason is they don't fix
6 cats, a male cat starts spraying the house
7 because it wants to get outside and mate.
8 Throw the cat outside. This is because
9 they've never been fixed. They're friendly.
10 They've been in a house. Now they've been
11 thrown out. Very small percentage.

12 The largest percentage we're going
13 to be talking about are wild. Definition of
14 feral is wild. You will never, ever pick
15 this cat up. It will bite you, scratch you.
16 Don't handle it.

17 How did it get here? They've always
18 been here. The cats have always been in Old
19 Forge, Wilkes-Barre, Taylor, West Pittston
20 because we brought them over hundred of
21 years ago on boats. They're not native to
22 North America. Now we need to figure out
23 how to control them. They adjust
24 beautifully to almost any environment. They
25 breed and keep breeding. So we're talking

1 about stopping that part.

2 Feral means wild. So a lot of the
3 animal control ordinances that I see define
4 cats generally as a cat that's being fed for
5 more than three days. Well, in my
6 experience -- and I feed three feral
7 colonies -- some of them will come, some
8 won't come. I put the food down but they're
9 there and they're gone. I don't control
10 them. They're wild. So we need to
11 understand that there is a difference
12 between an owned cat that should be inside
13 someone's home versus a wild cat that is
14 roaming our neighborhoods. So again, when
15 we talk about ordinances we should keep that
16 in mind.

17 Third page, what doesn't work. I
18 have to say to you that I've known Barb Loch
19 for ten years. She was the shelter manager
20 down in Easton. She moved up here, I
21 believe, in August and we came in a month
22 ago. You cannot do the cat management
23 program I'm talking about without
24 organization like these two. We do
25 thousands of cats. It's not enough to go do

1 a couple a month. I'll just saying that to
2 the people here that are going to be doing
3 this work here. It's not enough to do a
4 couple a month. We have to do dozens and
5 dozens because that's what's here. Ignoring
6 is pretty much what you've done because you
7 didn't have any options before.

8 But help has arrived. We are a
9 resource for you right down the road, and
10 you've got people in the community that
11 don't ask you for a nickel. They're going
12 to use their cars, their time, their gas to
13 do this, but we've got to work with them.
14 And the catch and kill obviously hasn't
15 worked.

16 Feeding bans don't work either
17 because in my experience you will drive
18 underground nice people. I've been doing
19 this for 15 years. I have never met anyone
20 who started feeding a cat that wanted to be
21 a horrible next door neighbor or a horrible
22 citizen of the municipality. They did it
23 because a skinny cat showed up at their
24 door, they took pity on it just like for any
25 animal, put a bowl down, and next thing here

1 comes four little kittens. She's got a
2 colony. But she doesn't know what the
3 resource is.

4 So nobody really does this because
5 they don't want to be a good community
6 person. It gets out of control and they
7 have never known what to do. We're here
8 now, and we're hoping that you'll work with
9 us so we can let your community know how it
10 can effectively take care of this.

11 So it's called targeting, and what
12 that means is we don't see a cat run across
13 the street and go you have to go find that
14 cat. That's not the way it works. They're
15 illusive, they hide. Some are nocturnal.
16 So how do we trap these cats? With feeders
17 at their source of food. Behind WaWa.
18 We've got a huge colony right behind eating
19 out of the dumpster behind the WaWa.
20 Wherever their food source is. That's why
21 feeding bans don't work. For trap and
22 neuter, return to be effective we have got
23 to work with the people who feed them.

24 We send a volunteer out, we do an
25 assessment, how many cats are there. We

1 need to get an appointment. We need to set
2 these traps up because of the cats not being
3 afraid to go in there. We use the trap
4 because they haven't been vaccinated. We
5 don't want to get bit, we don't want to get
6 scratched, and if you're good at what
7 you do -- I've never been bitten or
8 scratched and I've done a lot of these.
9 That's why we use these.

10 They get to our clinic, the first
11 thing we do is scan for a microchip. That's
12 the other thing we're trying to really
13 encourage people to do. Nobody ever buys a
14 dog license anymore. That's old school.
15 They're so much harder to get home because
16 they're not wearing a collar, nor should
17 they be. If they're wearing a collar
18 they'll choke.

19 So we scan for a microchip, make
20 sure it isn't a pet. If it is someone's pet
21 or if we determine it to be friendly we've
22 got some friends already in rescue here in
23 the area. We're going to see if they'll
24 take them and give that cat a home inside.

25 The it goes in and it gets prepped

1 for surgery. The cats are given spa works.
2 Vaccine, flea treatment, wormed, ear mite
3 treated, we do terminate pregnancies. We do
4 not deliver cats. Left ears tipped. I
5 believe the front page shows what an ear
6 tipped cat looks like. The first thing a
7 good trapper should do is have a flashlight
8 and look for that left ear tip. That's the
9 way we know that cat has been fixed and
10 vaccinated. Let it out and keep going. So
11 it's targeted. And I understand you've got
12 a situation of maybe a block here, Steve was
13 saying, where you've got one house after
14 another feeding. That's targeting. We have
15 to work a block at a time. It's not a quick
16 fix, and I'll give you an example.

17 Hellertown Borough, Northampton
18 County, same size. Police chief and the
19 borough manager asked me to meet with them
20 five years ago, 2014. We have a cat
21 problem. We need help. We came up with a
22 plan. The plan was that we were going to
23 start a T and R program. They also put an
24 ordinance in place that you can feed if you
25 fix. If you do trap, neuter, return. If

1 you're not willing to do that you have to
2 stop feeding, and they placed a fine on it.
3 I don't have a problem with that. They did
4 fine a couple people that did not cooperate.
5 The point is that we need to work with
6 feeders, and we cannot penalize them for
7 being part of the solution.

8 Now, 2014, two years after that --
9 we did 225 cats the first year, 175 cats the
10 second year, last year was eight. It took
11 four years for us to get it under control.
12 So that's what I want to say to you. This
13 is not going to happen overnight. We have
14 to have a willingness from you to understand
15 that you need to have something in place and
16 it's going to take time. We have to have a
17 willingness and educate our community here
18 about what we're trying to achieve, and that
19 through working with Steve we'll be able to
20 point out the hot spots and we could work
21 the hot spots right away.

22 There's plenty of people that feed
23 that can do their own trapping. Some of the
24 bigger ones is where you need your volunteer
25 help here, and you have large groups.

1 So last page of the handout, what do
2 we hope to achieve by this? First of all,
3 we want to stop the breeding. Eighty
4 percent of the kittens that come into a
5 shelter are coming from these ferals. Right
6 now there's kittens everywhere, and the cat
7 rescues and shelters are filled and they're
8 saying no to people and they get mad. Well,
9 we want to trap the mother. I don't work
10 with anybody that has kittens unless they
11 agree to let me do the mother.

12 But we can't stay on top of all of
13 this. That would be 12 to 16 kittens from
14 one female and we're not doing anything
15 about it right now. So we want to stop the
16 breeding.

17 The next one is we need to vaccinate
18 them. You have cats running around here
19 that don't have a rabies vaccine. That's a
20 health issue. That's the deal of trap,
21 neuter, vaccinate, return. They will be
22 vaccinated and also parasite treated.

23 Also, let's address why Steve will
24 get phone calls. Have you ever smelled -- I
25 just had two in my car. Have you ever

1 smelled male cat urine? It will knock you
2 off your feet. They're doing it for a
3 reason, marking territory and attracting
4 females. Once they get neutered it's gone.
5 Females in heat sound like they're dying,
6 and they only make that sound at 2:00 in the
7 morning. So that goes away. Those are
8 breeding activities.

9 Let's talk about probably another
10 big thing is peeing and pooping in my flower
11 bed or in my back yard and my neighbor
12 that's feeding. Legitimate complaints that
13 we have to address.

14 So there's a few things -- I did
15 bring a handout. I didn't give you those.
16 Maybe I leave them here. But here's how I
17 challenge that people can feed. If you're
18 going to feed you're going to fix them, and
19 then you're going to go buy three bags of
20 play sand and some mulch and you're going to
21 create litter box areas on your property
22 because cats love that. So if they're given
23 some place to go they'll stay off your next
24 door neighbor's.

25 There's some other things you can do

1 that I challenge people who feed to do that.
2 It's your responsibility. There's
3 deterrents that are extremely effective.
4 They're solar. They look like a landscaping
5 light. If you have a vegetable garden, it's
6 called Scare Crow. It's a motion sensitive
7 water sprinkler. They use it for deer.

8 Do you guys have toters here for
9 your garbage or bags? Okay, so it's not
10 just cats that are going to get in those
11 bags. Raccoons, too. We have to encourage
12 people -- you can't complain about the cat
13 if you're not doing anything about it. I
14 think crows peck them open. So let's get
15 real here. You can't blame the cat for it.
16 Hard sided, heavy carriers with a lid. We
17 have to encourage our residents to think
18 another step beyond blaming an animal for
19 something.

20 The other thing is, I think that
21 ultimately this is a volunteer driven
22 program. We have -- \$35 is our rate. It's
23 been that way since 2008. The reason we
24 haven't raised our rate is because a cat
25 does not belong to anybody. It's a

1 community cat. It belongs to your
2 community. Does not belong to an
3 individual.

4 So one of the things I came to talk
5 about is a huge barrier even to these ladies
6 sitting here doing the trapping is \$35 to a
7 lot of people is a lot of money, and they'll
8 take their last nickel to buy a bag of food
9 but they can't afford the \$35 that we
10 charge. That is an inexpensive charge, but
11 that's the reality.

12 So I came here tonight really to
13 introduce No Nonsense Neutering to you. I
14 think you know you have an issue, and I
15 wanted to make sure that you knew that you
16 have resources with No Nonsense Neutering.
17 So here's what I came, really, to say to
18 you.

19 First of all, I'd like to work with
20 Steve and you as council to suggest,
21 perhaps, over time developing an ordinance
22 that is specific, that is descriptive of the
23 animals that we're talking about so you can
24 be fair when you're going out and dealing
25 with people. I have this a lot with health

1 code officers. If there's a complaint you
2 have to go put something on the door. It's
3 his job.

4 But I think if we can come up with
5 something that defines cats and how we're
6 going to deal with them -- trap and return
7 being preferred -- how to deal with people
8 who won't work with us, I think that will be
9 helpful for you moving into next year.

10 I also want to offer you something
11 else. My experience with municipalities is
12 by the end of the summer you're looking at
13 your budget. So I'm here to offer you a
14 discounted rate for 100 cats. We've done it
15 throughout Schuylkill County, and I would
16 like to do it for this municipality to get
17 our program started. Instead of \$35, I
18 would like to offer that we contract with
19 you for \$20 per cat that you pay and the
20 trappers, the feeders, the groups that are
21 going to do this pick up the \$15 difference.
22 I'd like to start this whenever you would
23 vote on it, but I know you have to talk
24 about it.

25 And I would certainly like for you

1 to consider us for 2020 if you feel you do
2 not have \$2,000 laying around this year.
3 But budget time rolls around, we're talking
4 \$2,000. A hundred cats. Does that make a
5 difference?

6 So I'm going to come back at the end
7 of the summer and I will bring a contract
8 that I use, solicitor, that I use with a lot
9 of municipalities. Easton just signed with
10 us. We didn't give them a break, though.

11 But I would like to offer it to you
12 because we really feel that you need some
13 help and we're willing to do that. Do you
14 have any questions for me about what we
15 offer as a clinic and service or the trap
16 and return program?

17 MAYOR LEGG: If they bring you a
18 hundred cats to get neutered you're also
19 going to give them rabies shots?

20 MS. KAHAN: Everything. The works.
21 Spay, neutered, rabies, flea treated,
22 wormed, parasite treated, and tip on the
23 ear. Any other questions? Thanks for your
24 time.

25 MS. BARTOLETTI: John Jurosky?

1 MR. JUROSKY: What's the progress on
2 Ron Coles?

3 MR. BIERYLA: I sent him a letter.
4 If he doesn't appeal within a 30-day period,
5 after that it's a fine.

6 MR. JUROSKY: How long ago did you
7 send a letter?

8 MR. BIERYLA: Last time I talked to
9 you, the week after. I can't tell you
10 exactly, John. The time I spoke with you
11 and told you and the solicitor gave me that
12 form. I'd have to pull it up on the
13 computer. It's been sent.

14 MR. JUROSKY: Things haven't
15 changed. It's getting worse. You talk
16 about a junkyard, we have a junkyard in a
17 residential neighborhood. On the street is
18 a junkyard. We have cars parked with no
19 tags and no inspections. I got one car
20 parked on the corner of Main and Butler for
21 eight months with no inspection. It hasn't
22 been moved in eight months. I just don't
23 understand. We have to wait the 30 days. I
24 realize that.

25 MR. BIERYLA: It specifically says

1 that all vehicles to be repaired by the
2 service shop must be parked on service shop
3 property. So we have to wait 30 days.
4 After that if he doesn't appeal it, then
5 we'll let Mr. Seig handle it.

6 MR. NOTARI: What happens if he does
7 appeal? Then how long is it?

8 MR. BIERYLA: Then it goes in front
9 of the zoning hearing board, and then after
10 that he can take it to a higher court. Same
11 with Mr. Stocki.

12 MR. NOTARI: And the zoning board
13 would meet at the end of the month,
14 typically?

15 MR. PAPI: Fourth Thursday. Once
16 the appeal comes in I get in touch with the
17 zoning board. It wouldn't have to be --

18 MR. NOTARI: It wouldn't have to be.
19 It could be sooner.

20 MR. BIERYLA: Right.

21 MR. JUROSKY: Could we be notified
22 if that happens?

23 MR. NOTARI: I wold think you would
24 be notified because if there is a hearing
25 Steve would contact the neighborhood or it

1 will be advertised, the zoning hearing.

2 MS. BARTOLETTI: Mark Carey?

3 MR. CAREY: I just put up a
4 basketball hoop on Smith Street. It's a
5 busy street. It's a wide street. There's
6 very old children at play signs at opposite
7 ends down from Smull Street and James. I
8 just wanted to petition the council to see
9 if we can get new signs put up. Cars go up
10 and down that street at a high rate of
11 speed, and I just want to protect the
12 children in the neighborhood. So I just
13 want to see if you can put that on the
14 agenda and vote on it and put two signs on
15 each section of that street. The
16 intersection of Smull and Smith and also
17 James and Smith.

18 MS. BARTOLETTI: The poles are
19 there?

20 MR. CAREY: I think they're attached
21 to the wooden telephone poles.

22 The other issue, is it possible to
23 have something put on the road or sprayed on
24 the road, children at play? Is that doable?

25 MR. LOPATKA: You can probably paint

1 the street. You can't put in speed bumps.
2 They're municipal streets. I'll look into
3 it.

4 MR. CAREY: Lincoln Street, that's
5 where they speed up. If you can put it on
6 the agenda.

7 MR. NOTARI: If there's already
8 signs there we can just replace them.

9 MS. BARTOLETTI: Paul, look at it.

10 MR. PAPI: Sure.

11 MR. NOTARI: I don't think we have
12 to put it on the agenda.

13 MS. BARTOLETTI: Paul's going to
14 look at it.

15 MR. PAPI: They're not traffic
16 signs.

17 MR. NOTARI: If there's nothing here
18 you could put them up.

19 MS. BARTOLETTI: Ms. Grimes?

20 MS. GRIMES: My name is Leona
21 Grimes. My request is for a stop sign at
22 the corner of Dunn and Church, right at the
23 end of the housing project. Right now you
24 have a four-way corner there but you only
25 have a three-way stop, and people coming up

1 Church Street do not have a stop sign. They
2 fly up Church Street, make that right or
3 left-hand turn or fly straight ahead. I
4 think by having a three-way stop and not a
5 four way there's a false sense of security.
6 I just find it a difficult situation and an
7 unsafe situation and I would appreciate you
8 considering having a stop sign made a
9 four-way stop instead of a three-way stop.
10 That's it.

11 MR. NOTARI: Mayor, have the police
12 do a study?

13 MAYOR LEGG: Yes.

14 MR. NOTARI: First step is have the
15 police department do a study, if they feel
16 it's needed.

17 MS. BARTOLETTI: Anyone else have
18 anything else? Then we're adjourned.

19 (Meeting adjourned.)
