1	MR. RUSSELL RINALDI: Good evening,
2	ladies and gentlemen. I'd like to call the
3	work session to order with the Pledge of
4	Allegiance.
5	(The Pledge of Allegiance was
6	recited.)
7	MR. RUSSELL RINALDI: Roll call,
8	please, Marylynn.
9	MS. BARTOLETTI: Councilwoman
10	Avvisato is absent. Councilman Febbo?
11	MR. FEBBO: Here.
12	MS. BARTOLETTI: Councilman Hoover?
13	MR. HOOVER: Present.
14	MS. BARTOLETTI: Councilman
15	Komensky?
16	MR. KOMENSKY: Present.
17	MS. BARTOLETTI: Councilman
18	Lettieri?
19	MR. LETTIERI: Present.
20	MS. BARTOLETTI: Councilman Notari?
21	MR. NOTARI: Present.
22	MS. BARTOLETTI: Councilman Rinaldi?
23	MR. RUSSELL RINALDI: Here. Once
24	again, ladies and gentlemen, welcome to the
25	Old Forge Borough work session. Tonight is

	3
1	Tuesday, October 5th. The purpose of
2	tonight's meeting is to set the agenda for
3	our regular meeting, which will be Tuesday,
4	October 17th. We'll go to our department
5	heads, we'll go to our mayor, our council,
6	borough manager, if anyone has anything to
7	add.
8	There's a public sign-in sheet if
9	anyone from the public would like to address
10	us at the end.
11	With that said, we'll start off with
12	our DPW manager, Joseph Lenceski. Joe,
13	anything for the agenda coming up?
14	MR. LENCESKI: Nothing for the
15	agenda.
16	MR. RUSSELL RINALDI: Anybody have
17	any questions for Joe?
18	MR. FEBBO: I see Adeline here.
19	Joe, do you want to fill us in on that one?
20	MR. LENCESKI: I met with her, I
21	brought Dave there also, and I'm not sure
22	because I don't know if Dave wants to
23	speak about it. But I was there during a
24	couple rain events, I didn't see anything
25	happen. Mrs. Strazik says it crests but I

4 didn't see it crest. 1 MR. LOPATKA: We looked at it. 2 Ι 3 mean, I think they have probably an inch and a half, two inch rolled curb in front. 4 The 5 inlet is past their driveway. It takes a I didn't see anything, but I 6 fair amount. 7 wasn't there when it was raining. Joe 8 showed me a video when it was raining the 9 day before pretty heavy and everything 10 seemed to be going past there. 11 The only fix would be to put an 12 inlet on the upper side of their driveway. 13 That's up to you guys, if you want to do 14 I mean, there was no indication -that. 15 there is a fairly high rolled curb there. 16 MR. RINALDI: So you said put an 17 inlet on the upper side of that curb. Ιs 18 that going towards Shawnee or going towards 19 the elementary? 20 MR. LOPATKA: The upper side, 21 Shawnee. I mean, that's the only thing that 22 I could see that would take all the water 23 that was going past there. I mean, you're 24 looking at an inlet and probably 60 or 80 25 feet of pipe, maybe.

5 1 MR. HOOVER: Are we getting more water coming down the street across the 2 3 street from her, coming down that and 4 meeting that, or is it water coming down --5 MR. LOPATKA: Coming along the curb. The edge of the road. Not from the road 6 7 coming straight down. MR. HOOVER: The intersecting 8 9 street. 10 MR. FEBBO: Obviously there's a 11 problem, otherwise these people wouldn't be 12 sitting here telling us about it. Her 13 basement keeps getting flooded whether it's 14 a storm or a freak storm or whatever. We 15 need to deal with the problem. 16 MR. HOOVER: Did you get any water 17 the last two days when it rained? 18 MRS. STRAZIK: No. It has to rain 19 hard for a longer period of time. The curb 20 will take it, then all the sudden it just 21 pours over. Actually Joe took a picture of 22 my garage door. The water was this high on 23 my garage door. 24 MR. FEBBO: Joe, you did see 25 documentation that the water does come down

1	
	6
1	there?
2	MR. LENCESKI: I don't know if the
3	solution would be to make sure there's no
4	obstruction in that four inch line first.
5	MR. LETTIERI: I was going to say is
6	there something else causing it?
7	MR. LENCESKI: That trough line is
8	large.
9	MR. LOPATKA: I don't think there's
10	anything else causing that. The road
11	doesn't have a ton of inlets. It probably
12	should have more coming down the road.
13	MR. LENCESKI: As the water comes
14	down, though, between Petress' house there's
15	just a gravel road. The water turns and
16	goes down the woods.
17	MR. HOOVER: So you have to put one
18	past that.
19	MR. LENCESKI: To guarantee that no
20	water would ever go down her driveway again.
21	MR. LOPATKA: I don't think there's
22	any other issues. I think it's probably the
23	really heavy rain.
24	MR. FEBBO: The thing that happens
25	there is when you get a heavy rain over a

7 1 long period of time you get a lot more runoff coming from the top of the hill at 2 3 Cherokee and everyplace else. A normal rain 4 storm will handle it. But then it backs up 5 and everything's saturated. MR. LOPATKA: The really intense 6 storms are probably the storms that would 7 8 cause it. A regular rain storm wouldn't 9 cause it. 10 MRS. STRAZIK: We've had about four 11 already this year. 12 MR. FEBBO: Dave, work something out 13 with these people so we can take care of the 14 problem, please. 15 MR. HOOVER: I mean, if we have to 16 put one in, we have to put one in. 17 MR. RUSSELL RINALDI: If you think 18 we need an inlet or --19 MR. LOPATKA: That would definitely, 20 I would think, solve the problem if you put 21 one up above their driveway a little bit, 22 because then you're picking up half of the 23 road that's coming down from above. There's 24 a pretty long stretch between inlets. 25 MR. RUSSELL RINALDI: Is the curb --

1 you said --MR. LOPATKA: It's about inch and a 2 3 half, two inches high. It's a rolled curb in front of their driveway. If you pick it 4 5 up before it gets there, naturally you're going to have that much less water. 6 7 MR. RUSSELL RINALDI: Is the water 8 coming over the curb? 9 MRS. STRAZIK: Yes, and it cuts 10 right across where the road is eating away. 11 MR. RUSSELL RINALDI: Is your curb 12 the same height now as it's always been? MRS. STRAZIK: Well, we had an 13 14 actual curb, cement curb. When the road was 15 paved, of course, it wasn't paved correctly, 16 and so when we told them that they had to --I don't know what the correct word is for 17 18 the water to go on the opposite side of the 19 street, they didn't do that. 20 So then the borough actually came 21 and put that blacktop there because they 22 have covered our curb. 23 MR. RUSSELL RINALDI: Do you have 24 any idea what year that was? 25 MRS. STRAZIK: The water comes right

9 1 across from my driveway. It comes from Apache Drive. It doesn't come from Cheyenne 2 3 or whatever. With the water coming down the street and then that water coming right 4 5 across from the driveway, that's when it just pours over the driveway and just fills 6 the driveway. 7 8 MR. RUSSELL RINALDI: If we put the 9 inlet in to catch -- I don't know the percentage of the water. We'll say some of 10 11 the water coming down, and then if the curb 12 was built up higher to stop it that way, 13 That's my question. That's why I too. 14 asked if the curb was always that high or if 15 the curb --16 MR. STRAZIK: He said it's 70 or 80 17 feet, when my lot is only 75 feet wide. So it can't be that many feet. 18 19 MR. LOPATKA: Yes, it is, of pipe. 20 MR. FEBBO: Bituminous curb, if the 21 curb was built higher, couple more inches, 22 with blacktop would that help? 23 MRS. STRAZIK: I probably couldn't 24 get my car over it. 25 MR. LOPATKA: Their driveway goes

down.

1	MR. LENCESKI: Dave and I went
2	there.
3	MR. LOPATKA: There's actually four
4	inlets on the south side of the road and
5	there's one on the north side. It's not
6	real big. The one on the north side looks
7	like it was an old stone box. It's kind of
8	open on both sides. The water goes in and
9	shoots across the road.
10	MR. LETTIERI: When I drive by I
11	don't see much build up there.
12	MR. LENCESKI: There is no ponding
13	there.
14	MR. LOPATKA: I didn't see ponding.
15	It probably runs along the edge of the
16	shoulder. On the north side of the road
17	most of those lots come down to the edge,
18	then the road kind of cuts up. So it
19	probably runs down along the edge of the
20	road.
21	MR. HOOVER: I looked at it the
22	other day and it didn't seem that there was
23	any water going down Michael Mucciolo's
24	over his curb. I didn't see any water from
25	the road going over the curb down by his

	12
1	house. None at all.
2	MR. LOPATKA: There is a manhole on
3	his property.
4	MR. HOOVER: Does it come out into
5	the street a little bit four or five feet?
6	Yeah, until it gets to the other side of the
7	road, then it goes.
8	MR. LOPATKA: On the north side.
9	There's an inlet over there. It's more like
10	two concrete walls and the water kind of
11	comes in from both sides. Typically you'd
12	see some kind of staining if the water was
13	sitting there for a while.
14	MR. HOOVER: It goes away pretty
15	quick.
16	MR. LOPATKA: There's a little dip.
17	This is on Keyser. I didn't see any
18	staining. Like, the water sitting
19	somewhere.
20	MR. LETTIERI: Like I said, when I
21	drive by there I look. I don't see what
22	he's saying is there.
23	MR. LOPATKA: They're big pipes,
24	too. They're 18s and they go into a 36. So
25	that water has to drain pretty good. Some

-	
	13
1	of those inlets were covered.
2	MR. LETTIERI: As long as you guys
3	took care of it and looked at it I believe
4	you guys. When I go by there I don't see
5	what he's talking about. Even during that
6	last rain storm it wasn't even that bad.
7	Thank you, guys.
8	MR. FEBBO: Joe, how did you make
9	out with that sewer in front of Michael's.
10	MR. LENCESKI: There's a lot of
11	bends in it. He needs to get a different
12	kind of camera to make all the turns. He
13	couldn't make all turns with it. So he's
14	supposed to set it up this week.
15	MR. FEBBO: What about Milwaukee
16	Drake's Lane? Just so council knows, we
17	have some problems coming up with the sewers
18	on Main Street again.
19	MR. LENCESKI: There's definitely a
20	problem from Main Street, Drake's Lane,
21	maybe about eight feet. It's collapsed.
22	What they did, the fix was, I guess, talking
23	to Mike, they inserted a pipe into a
24	collapsed line. That's why it's still
25	collapsing and we have that depression in

14 1 the road. MR. HOOVER: I think there's a lot 2 3 of debris in that pipe from that water main 4 break in front of the hardware store, too. 5 MR. LENCESKI: There is. I spoke to Mike today about it. He's purchasing some 6 7 type of jet. 8 MR. FEBBO: Was there any kind of 9 work done by the gas company, the water in 10 front of Saint Lawrence's Church? 11 MR. HOOVER: There was a water leak 12 at Dianne Miller's house. Her service was 13 leaking. 14 MR. FEBBO: I'm getting complaints there's a big pothole there. 15 16 MR. HOOVER: I called today. 17 MR. RUSSELL RINALDI: Anyone else 18 have any questions for Joe? Thanks, Joe. 19 Code enforcement/zoning officer, Chris Hart. 20 Anything for the agenda? 21 MR. HART: Nothing. 22 MR. RUSSELL RINALDI: Anybody have 23 any questions for Chris? 24 MR. HOOVER: How's the problem 25 property? The one over on Garber.

1MR. HART: There's been nothing.2The garage? I haven't heard a single thin3I stop over once in a while if I see one4them outside. They're just in and out.5They really haven't been there much.6MR. 12 that will have to toss them out.	
13 MR. FEBBO: Apparently not. The	re's
14 nobody here.	
15 MR. HART: There hasn't been an	
16 issue. The one kid, I don't know if he's	6
17 still in jail or not. But the one was in	ı
18 jail and that was it. It was just quiet.	
19 It was basically dead.	
20 MR. HOOVER: There's still cars	
21 parked there.	
22 MR. HART: There's a couple cars	
23 there. I know the one kid said he was	
24 working on a car here and there. He's in	ı
25 and out. But he's by himself. Nick's in	า

2	CHIEF DUBERNAS: The one owner's car
3	is there. When he gets time he's putting a
4	clutch in it because I called him about it.
5	He said he was working on it. He was trying
6	to get parts, can't get the parts for it.
7	MR. KOMENSKY: How about the
8	painting on the Gilchrist property?
9	MR. HART: They've been painting in
10	there forever. They are painting in there
11	but he's employed by Billy. That used to be
12	a body shop. It's kind of a fine line to go
13	at him on a body shop right now that's been
14	there for years. That's my only concern. I
15	was going to talk to you guys about it.
16	MR. NOTARI: Keyser Avenue?
17	MR. HART: Gilchrist Trucking.
18	MR. FEBBO: Does he have a paint
19	booth?
20	MR. HART: There was one in there at
21	one time.
22	MR. FEBBO: Is there one in there
23	now?
24	MR. HART: No, but, like I said,
25	he's been

r	
	17
1	MR. FEBBO: Grandfathered in.
2	MR. HART: So how do we do it? He's
3	been up there for how long? He used to fix
4	his own tractor-trailers and do the same
5	thing. The first two bays. So if you're
6	going up there and you look at the building
7	to the right, the first two bays are where
8	they're doing it. Like I said, if I go
9	after Billy, I mean, it's his business, it's
10	his property. Are we creating an issue that
11	we're never going to win because he's been
12	doing it since day one.
13	MR. RUSSELL RINALDI: Bill?
14	ATTY. RINALDI: So this is not
15	Gilchrist, this is somebody renting it with
16	the doors open and painting vehicles?
17	MR. HART: Not painting with the
18	doors open, no.
19	MR. RUSSELL RINALDI: Bill, this is
20	the Gilchrist building.
21	ATTY. RINALDI: I see the doors open
22	and people working when I drive by.
23	MR. HART: He's not painting all the
24	time, but he's in the first two bays. He is
25	in there I was told that he's employed by

	18
1	Billy. Like, he does Billy's work. I know
2	he does work for Stocki as well. So, I
3	mean, I just didn't want to
4	MR. FEBBO: Bill, the question is is
5	he grandfathered in there? He's been there
6	for so long doing that.
7	ATTY. RINALDI: I don't know. I
8	probably want to talk to some planning guys
9	because I know he had issues with sound and
10	all that. I remember those things. But I
11	don't know anything about painting trucks.
12	You're way before me.
13	MR. HART: I just did my homework.
14	I asked around, I talked to the people. I
15	just didn't want to go stirring up another
16	issue when it comes to Gilchrist and Stocki
17	when we're already in that situation. So I
18	don't want to make things worse until one's
19	resolved.
20	MR. FEBBO: Gilchrist's farther,
21	when he first built that building, did
22	everything up there. Repair, paint and
23	everything else. So that's been going on
24	since the building was there.
25	MR. RUSSELL RINALDI: Well, if he's

1 grandfathered in, then that's a different 2 story. But let's find out if he's 3 grandfathered in. That's what my question 4 would be. If he's grandfathered in, then 5 he's grandfathered in. But let's find out. 6 ATTY. RINALDI: I don't know what 7 the requirements are for painting. I'm sur 8 you must need a paint booth. 9 MR. FEBBO: You do. He painted all 10 his own trucks. 11 MR. 2	MR. HART: Tunis.
3	MR. KOMENSKY: So he's not
4	technically grandfathered.
5	MR. HART: No, but like I said, if
6	he's employed under Billy, like I said, I
7	mean, my only thing is I don't want to go
8	stirring up more problems.
9	MR. NOTARI: So is he just doing
10	work for Billy or is he doing anybody? I
11	could take my car there to get painted?
12	MR. HART: No, he's not that kind.
13	He's more equipment like tractor-trailers,
14	machines, stuff like that. That's what he
15	does. Now, I know he has his own offsite
16	business, too. But he goes to other places
17	and paints. I just saw he does pool steps,
18	stuff like that. But that's on his own. Up
19	there it's more equipment. It's Stocki's
20	equipment he's doing as well through Billy
21	and tractor-trailers.
22	MR. NOTARI: That's how this whole
23	thing started. Billy allowed Stocki to do
24	whatever he wanted on the property, and
25	nobody called him on it until we started

21 1 pushing him. 2 MR. HART: I think everybody knows 3 how it would go if I went up with Billy. Ι 4 know what was going on with Stocki. I 5 didn't want to fuel the fire. I keep an eye on the property. I'm up there every single 6 7 day from Gilchrist all the way down. 8 MR. RUSSELL RINADLI: Let's check 9 with Joe on that and check with him to see 10 if he's employed by Billy or if he's working 11 there on his own. Anybody else have any 12 questions for Chris? 13 MR. LETTIERI: Three quick updates. 14 One is the rooster. 15 MR. HART: I'm trying to relocate 16 them. 17 MR. LETTIERI: The second one was 18 the grocery store on Gaylord. 19 MR. HART: The grocery store, I 20 reached out to Ray Petty again actually 21 yesterday and I still do not have a contact 22 number. I sent e-mails, I didn't get 23 responses. 24 MR. 3	It's tough.
4	MR. NOTARI: You'll be able to drive
5	up and see the back yard.
6	CHIEF DUBERNAS: Remember when they
7	tarred the driveway? She was flipping out.
8	I went there and she came after me with a
9	broom.
10	MR. HART: There's a few houses that
11	they own around town and they're all
12	abandoned.
13	MR. RUSSELL RINALDI: Anything else?
14	MR. HART: No.
15	MR. RUSSELL RINALDI: Anyone else
16	have anything for Chris? Thanks, Chris.
17	Engineer, Dave Lopatka, anything for
18	the agenda?
19	MR. LOPATKA: Nothing for the
20	agenda. Apache, do you want a plan put
21	together?
22	MR. FEBBO: Did Joe say he was going
23	to take a look at that pipe, make sure
24	there's no obstruction first?
25	MR. LENCESKI: If it's okay with

	27
1	council.
2	MR. RUSSELL RINALDI: It's okay with
3	us.
4	MR. NOTARI: Stay in communication
5	with Dave. If it doesn't work or it's
6	clean, then yeah, make a plan.
7	MR. HOOVER: We'll plan it.
8	MR. LOPATKA: Dugouts. I just had
9	guys over there the other day getting some
10	final measurements, so we'll have those
11	shortly.
12	The paving project, everything's
13	measured. I had them out actually today
14	taking a couple other measurements, taking
15	pictures. We'll have the cost estimate for
16	that next meeting.
17	The borough building, the whole
18	inside is done. Still waiting for stucco
19	and stone.
20	MR. NOTARI: We need the stone
21	before we stucco?
22	MR. LOPATKA: No.
23	MS. BARTOLETTI: They started
24	working on the stucco today.
25	MR. HOOVER: The back is almost

F	
	28
1	done. Right?
2	MR. LOPATKA: They put the final
3	pave down in the back. I think Comcast was
4	supposed to be coming this week.
5	MS. BARTOLETTI: They came on Friday
6	for the initial meeting and I'm waiting for
7	the appointment this week.
8	MR. LOPATKA: They need to come and
9	hook up the cable. Also, there's a line
10	that runs to the elevator. We need that
11	Comcast line because there's a phone jack on
12	the elevator, and it has to be in there
13	before L&I will inspect the elevator.
14	That's one thing we're waiting for. I think
15	everything on the inside is almost done.
16	They're just doing some touch up stuff here
17	and there. It's really just the outside at
18	this point.
19	MR. NOTARI: Is the blue stone in
20	transit? Is it on a ship in the Pacific?
21	Stuck in a dock?
22	MR. LOPATKA: Last week, Friday,
23	they said they were supposed to be getting
24	it this week. Maybe not all of it but
25	pieces. I don't know what that means

-	
	29
1	because there's not that much of it.
2	MR. NOTARI: They should deliver it
3	right to the borough building.
4	MR. LOPATKA: Well, there's not much
5	of it, so I don't know what they're talking
6	about getting it in pieces. That's what I
7	was told.
8	MR. NOTARI: Where is the blue stone
9	coming from? Who is the company?
10	MR. LOPATKA: I don't know now
11	because originally it was supposed to come
12	from somewhere local.
13	MS. BARTOLETTI: Meshoppen?
14	MR. NOTARI: I could call and act
15	crazy on the phone.
16	MR. LOPATKA: But those are the big
17	items. I think they got the seed down in
18	the back, top soil, seeded, paving done,
19	stripe it, I think he said, next Monday or
20	something, parking stalls, all that stuff.
21	Just the front, really, that we need to
22	get
23	MR. NOTARI: And we can't work on
24	the front of the senior center until
25	everybody's moved out of there. Correct?

30 1 Right, because they're MR. LOPATKA: going to basically take that whole wall out 2 3 because that whole wall is windows. Again, 4 windows and some of that stuff order-wise is 5 going to take them a little time to get in So the focus was on getting the 6 anyway. 7 main building finished so we can get them --8 MR. NOTARI: You can still order 9 that stuff, though? 10 MR. LOPATKA: Yes. They were 11 approved for the change order, so I'm hoping 12 that they're ordering everything. 13 MR. NOTARI: That's what I hoped 14 when we approved everything, the project, 15 they would have ordered everything last 16 I know you told me that's not how it year. 17 works. 18 MR. LOPATKA: Doesn't work that way. 19 MR. NOTARI: So here we are three 20 months overdue without any stone because we 21 waited until May to order it. 22 MR. RUSSELL RINALDI: Anything else, 23 Dave? 24 MR. LOPATKA: No. 25 MR. RUSSELL RINALDI: Anybody have

9	ATTY. RINALDI: Yes. We're going to
10	bring up the RFB Urban Research Development.
11	That's one item, try and get that passed.
12	Anybody heard from the school
13	district? Anything knew? Okay. If I could
14	sit down with whoever on the sewer committee
15	and maybe we can hash out an updated sewer
16	ordinance to get that finalized for the new
